LIGHTING DEFINITIONS*

LUMEN

Light output
Output of luminous flux.

CRI Ra

Colour rendering index

The higher the CRI (on a scale 0 - 100), the more natural the colours appear. Natural outdoor light has a CRI of 100Ra.

CCT

Correlated Colour Temperature

CCT is defined in degrees Kelvin (K). 3000K warm light, 4000K neutral white.

UGR

Unified Glare Rating

The Unified Glare Rating (UGR) is an international index that quantifies discomfort glare. The lower the value, the less discomfort users will experience.

* Courtesy of Koninklijke Philips NV

LED MODULES:

Basic lighting module available in CRI >80Ra and >90Ra in 2700K, 3000K and 4000K.

Excellent quality of light and colour rendition, combined with high energy efficiency. Ideal for creating ambience, fresh whites and depth of colour in many retail environments. Premium White module available in CRI >80Ra and >90Ra in 3000K and 4000K. Premium Ambiance module available in CRI >90Ra in 2200K.

LED modules dedicated towards fresh food applications. Food WarmWhite Module: Enhances the appearance of fresh food, such as bread, fruit and vegetables. Food Premium Meat Module: Enhances the appearance of fresh meat. Fresh Fish Module: Enhances the appearance of fresh fish.

Dim-to-Warm is a technology that reduces a luminaire's colour temperature when being (phase) dimmed, from 3000K to 2200K. This makes our Dim-to-Warm fixtures ideal to use in domestic and hospitality projects.

Tunable White allows you to control the colour temperature of a fixture between 2500K and 7000K. Our Tunable White fixtures can be controlled using the user friendly Casambi app.

CASAMBI

Casambi is a bluetooth low energy lighting solution. A large number of our fixtures can be equipped with the Casambi option. All Casambi products automatically form a wireless mesh network. It can be controlled by smartphones, tablets or smart watches. The Casambi App can be downloaded for free in the App store. With Casambi you can:

- Dim the lighting*
- Group luminaires and controll them together
- Configure, save and recall scenes
- Adjust light colours*
- Adjust colour temperatures*
- Take pictures and add lighting control directly to your picture
- Defining timers for the purpose of Human Centric Lighting*

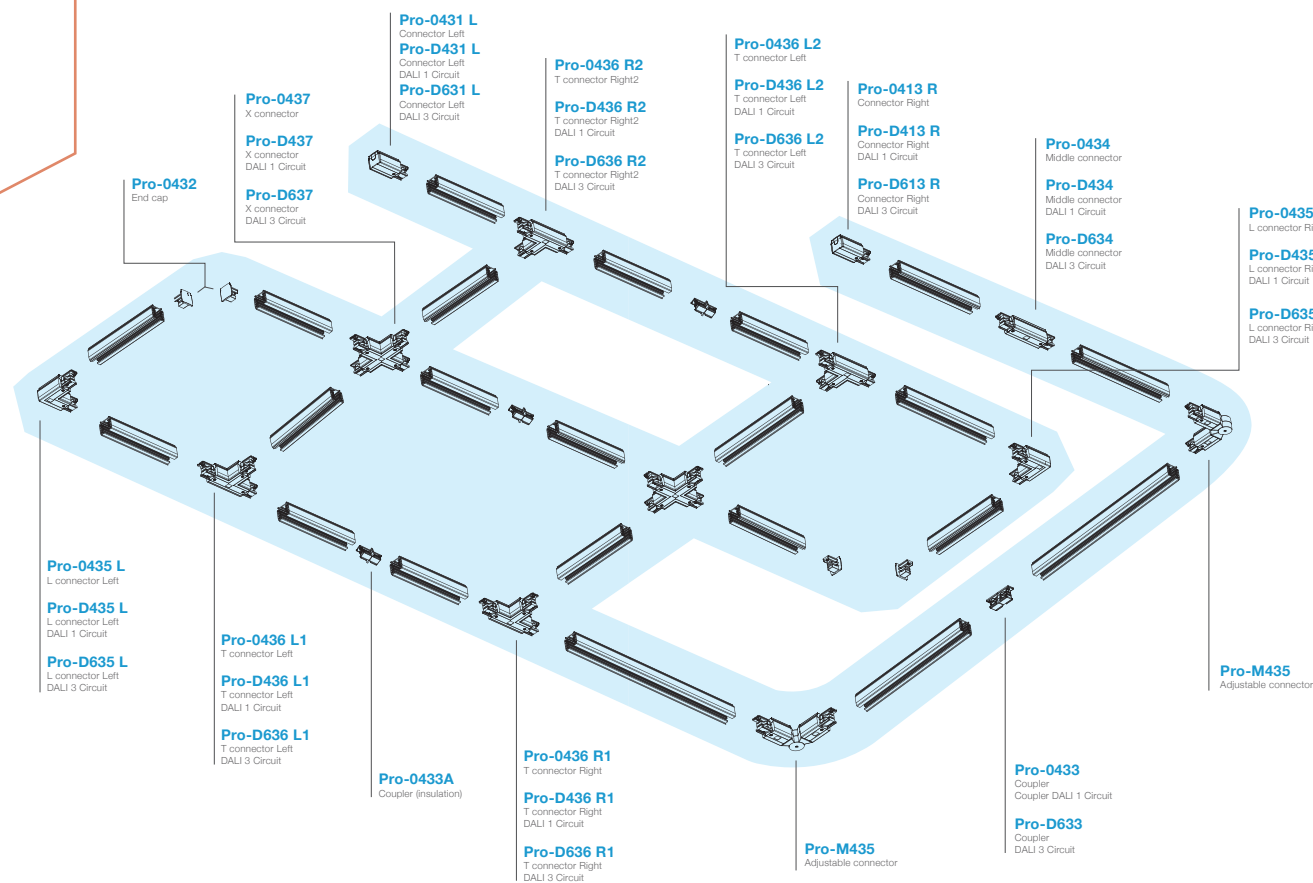

* Fixtures have to be equiped with this feature

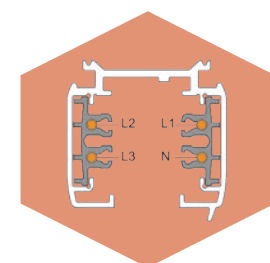

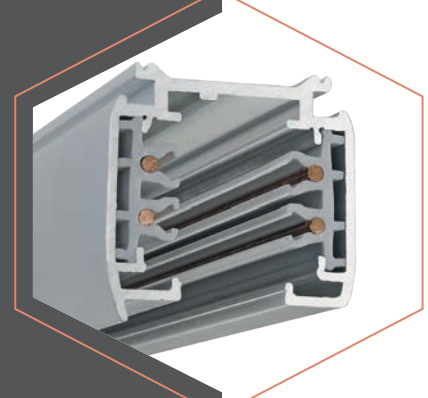

POWERGEAR®

SURFACE MOUNTED 3-PHASE TRACK

High quality 3-Phase track for professional and flexible lighting solutions. PowerGear track is suitable for tracklights with 3-Phase adapter of all major brands! PowerGear is being produced under certified ISO9001 and ISO14000 regulations and it features ENEC, UL, TUV/GS labels.

Also available as recessed track.
