POWERGEAR®

EUROPE

Powergear is a strong global brand in tailor made lighting track systems and universal adapters for the professional lighting market. From our European head office for sales, service and distribution we offer swift and efficient deliveries and strive to provide the highest level of customer service possible.

The growing Powergear distribution centre network ensures availability throughout all European countries, making Powergear the winning brand in Lighting Track.

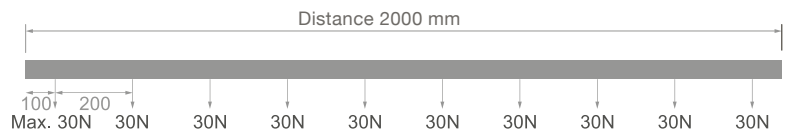

Powergear offers a high quality 3 circuit (3-phase) lighting track system which is fully compatible with 3-phase adapters of all major brands. The comprehensive range of innovative accessories – like the twisted L and T connectors – gives the designer maximum freedom to create the ultimate track plan. The track can easily be shortened and the Ezklik mounting features make the track system quick and easy to install. After cutting the track it's immediately ready to install and there is no need to adjust the wires.

To guarantee cost-effectiveness and flexibility, we make use of our own manufacturing facilities with our products being produced under certified ISO9001 and ISO14000 regulations and ENEC, UL, TUV and GS labels which are relevant for the European market.

1 CIRCUIT DALI TRACK SYSTEM

Powergear 3 circuit track can easily be used as a 1 circuit system (1-phase) with DALI connection. It is eminently suitable for the professional lighting market where the track system is not too comprehensive and the budget is limited. DALI trackspots can be controlled by standard 3 circuit track. The only thing you need is DALI 1 Circuit accessories and ofcourse... a control signal!

ADAPTERS

Powergear adapters have a great compatibility to all major lighting track systems in Europe and North America. For the OEM market Powergear offers a wide range of 3 circuit and 3 circuit DALI adapters. The latest development is the Ultimate Adapter in which the multi current driver is concealed in the adapter.
